JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CUBA.

*Reports from Cienfuegos—Inspection and fumigation of vessels—
Yellow fever—Leprosy.*

Acting Assistant Surgeon Marsillan reports, October 28 and 31:

Week ended October 26.

Vessels inspected, fumigated, and bills of health issued.....	2
Members of crews inspected.....	92
Passengers inspected landed at this port: 1 cabin and 6 steerage.....	7
Immune certificates issued.....	1

October 21, the German steamship *Heidelberg*, from Manzanillo, Cuba, bound for New Orleans, and the Spanish steamship *Martin Saenz*, from Habana, destined to Savannah, were fumigated by this office.

The general sanitary condition of this city is the same as previously stated. There are only 2 cases of yellow fever under treatment. Leprosy is present.

During this week yellow fever caused no deaths, nor were there any cases of that disease reported in the city and surrounding country.

October 31: One case of yellow fever in the surrounding country, ended in death.

November 4: Last case to date died yesterday.

Reports from Habana—Inspection and fumigation of vessels—Yellow fever—Yellow fever in Camaguey Province.

Passed Assistant Surgeon Amesse reports, October 28 and 31, and November 1, 4, and 5:

Week ended October 26.

Vessels inspected and bills of health issued.....	18
Vessels not inspected and bills of health issued.....	7
Members of crews of outgoing vessels inspected.....	719
Members of crews of outgoing vessels not inspected.....	202
Passengers of outgoing vessels inspected.....	302
Passengers of outgoing vessels not inspected.....	13
Certificates of immunity to yellow fever issued.....	26
Persons entering Triscornia for observation prior to sailing.....	76
Persons transferred from Triscornia to vessels.....	45
Vessels fumigated prior to sailing.....	10

During the week 2 deaths from yellow fever were reported from the province of Habana. These cases appeared in a Cuban family at Jaruco near Campo Florido, and were of unusual severity, native children not commonly succumbing to this disease.

On the whole, however, the situation shows improvement. At the close of the week there were but 3 cases under treatment in the island of Cuba, 2 of these being isolated at hospitals in Habana.

October 31: One case yellow fever, Guines, Habana Province.

November 1: One case of yellow fever at Habana, Spaniard living corner Concordia and Marquez Gonzalez street, taken sick October 27; isolated at La Benefica Hospital.

November 4: Case at Guines resulted in death to-day.

November 5: Fatal case yellow fever Ciego de Avilla, Province of Camaguey. American troops at that point removed to Ceballos. Doctor Tomasson and sanitary brigade ordered to proceed from Cienfuegos.
